THE CLIMATE CITY CONTRACTS

All Mission Cities develop a **Climate City Contract (CCC)**

.....

CCCs are tools for cities to **plan and implement concrete actions** in a collaborative way to **reach climate neutrality by 2030**

.....

Through CCCs, cities **deliver on the Mission's objectives by engaging with citizens and partners** at the local, national and EU level

.....

Cities whose CCCs are reviewed positively by the Commission will be awarded with **the EU Mission Label acknowledging the quality of the CCC process and the commitments** made by the city

.....

The Mission Label is intended to **facilitate access to further funding and finance** at EU, national and regional level, and in particular to private investment
